MEDICAL SERVICES - INSURANCE ENQUIRY

Brief from

A. Wyatt, P. Eng.

2111 Carlton Ave., Niagara Falls, Ont.

1. In a recent dispute with the Physicians Services Inc., concerning waiting periods, they resolved the dispute 100% in their own favour. This decision may or may not be correct. In any health insurance scheme it is essential that the subscriber have access to free and independent arbitration.
2. No person asks to be brought into this world. From conception until death every person should have an equal opportunity to enjoy good health. A comprehensive government sponsored health scheme, free of private interests is essential to achieve this aim. This is not socialism - merely plain humanity.

A. Wyatt
